Our journey

On the surface, it's a handicraft journey in eastern Nepal....

... But really, it's a liberating immersion into a vibrant and colourful culture and magnificent landscape.
It's designed for women who may not usually contemplate a group tour. It's a *shared experience* rather than *heavy handed guidance!* It is NOT for people who like rigid itineraries and can't handle the occasional change in plan!

Culture - art, craft, traditions

Do you want to leave the beaten track and learn about another culture?
Do you want to share with the local people in a very authentic and genuine way?
Are you happy to sometimes feel the fear but do it anyway?
(sometimes we even dance!)
We are ready for the unexpected and even anti-shoppers go a bit wild on our trips. We laugh a lot. If this sounds like your holiday, why not get in touch?
